Update Guide Autumn/Winter 2009-2010

MODERN
FALL

THE BLUES

BRILLIANT SHADES OF OCEAN BLUE

are sure to be the new "it" color this season. Last season we saw lots of purples and greens, this season it's blue! The shade is usually used in feminine silhouettes, fitted trousers and jackets. Not to mention coats. Little accessorizing is done with this hue because the color is the main focus. Occasionally, the hue might be paired with a print that has blue in it. Go blue this season!

GET THE LOOK

Browns and reds always pair well with blue shades. Keep the reds minimal and emphasize more of the browns.

TOWN & COUNTRY

ONE OF THE UNDERDOGS THIS SEASON IS A TOWN AND COUNTRY LOOK.

We see lots of browns paired with leather as an accessory. Leather coats are in and so are leather knee length skirts and pants. Fall wouldn't be fall without autumn colored leather handbags! They come in all shapes and sizes this year, but mainly in a medium to small size.

GET THE LOOK

Keep the lips simple with this look. Try pairing your almost nude lips with rich brown toned eyeshadows.

CIRCLE DOT DOT

IT'S AS IF SPRING DIDN'T WANT TO MAKE WAY FOR FALL.

We still see some fall colored prints inspired by spring. We see lots of circles and even polka dots in darker colors. Most of the time the prints are being used as an accessory to the outfit. Sometimes they can be used as an undershirt paired with a jacket or coat. Don't be afraid of prints this season, embrace them!

PERFECT SKIN

Beautiful skin can be yours this season with our wonderful skin care products.

IT'S RAINING COATS!

DO YOU HAVE THE NEW "IT" COAT FOR THE CHILLY WINTER AHEAD?

If you don't, this is the season to break the mold and be bold with your coat! Forget the boring blacks and tans, try a different fabric and style. Why not try a print while you're at it? We see a lot of different styles this season with coats. Most seem to be belted and show off broad shoulders and large lapels.

COLOR ALLIANCE®

Wondering what colors work best for you? Or what shade enhances your tan, even in fall? Our advanced Color Alliance® system calculates over 40 hues that are perfect for you only!

NO GREY MATTER

BLACK AND WHITE ARE BACK!

Who knew? We see the two paired in every way possible. Occasionally, we only see black. But, overall, the two are an item this season. We see lots of embellishment with this trend; more so than any other this season. From bows, beads, feathers and rouching, if it's black or white and paired with the opposite, it's in! Waist emphasis is always a plus with this style. A new trend emerges with pants this season; we still have a masculine fitted pant but this time it's slightly baggier on the hips with a more tapered fit for the leg.

GET THE LOOK

It's all about a "classic" look with this style. Great skin, full red lips and perfectly lined eyes with thick lashes.

ROUNDBABOUT WAY

FORGET ABOUT GEOMETRIC SHAPED COLLARS

for your blouses this season. Go rounded with your shirt and dress collars. We see lots of rounded collars reminiscent of the "Jackie O" look seen in past fall trends. For those of you who love angled collars, not to worry. They're still in, but the rounded look takes precedence this season.

ROUNDED OR ANGLED?

Looking for your perfect fit in the professional world? We have the solution for you: Signia®, for women and for men. Signia® is one of the most innovative tools around to help you find your personal style and emphasize your greatest assets.
